

Rele 126

50

51. A diagnostic process comprising:

analyzing for the presence of the polypeptide of claim 24 in a sample derived from a host.

51

52. A diagnostic process comprising:

analyzing for the presence of the polypeptide of claim 26 in a sample derived from a host.

52

53. A diagnostic process comprising:

analyzing for the presence of the polypeptide of claim 32 in a sample derived from a host.

Remarks

The claims of the above amendment are believed to be fully supported by the original claims, specification or drawings. Therefore, no new matter is believed to be presented.

A hard copy of the Sequence Listing provided in parent application 08/464,339, filed June 5, 1995, has been provided herewith and inserted into the specification. The undersigned certifies that the hard copy of the Sequence Listing provided herewith and the computer readable file (CRF) provided last in the referenced parent application are the same. Accordingly, the Examiner is authorized to utilize the earlier provided CRF of the parent application in examining this case. Therefore, no new CRF is provided herewith.

08/464,339

The Examiner is invited to call the undersigned at the below number if any further action by applicant would expedite the examination of this application.
